OLYMPIC SCHOLARSHIPS

OF THE NATIONAL OLYMPIC COMMITTEE OF MOROCCO

LOS ANGELES 2028

OLYMPIC SCHOLARSHIPS OF THE NATIONAL

This program aims to improve the preparation conditions of Morocco's elite athletes in order to meet their specific sporting needs. These scholarships complement the support provided to their athletic projects through agreements established between the National Olympic Committee of Morocco and the Olympic federations, in preparation for the Los Angeles 2028 Olympic Games.

These scholarships are funded through the Olympic Solidarity program, the ANOCA program, as well as the agreement relating to the implementation of the multi-year program for the preparation and participation of athletes in international sporting events (2019–2028), signed in April 2019 between the National Olympic Committee of Morocco and the Ministry in charge of Sports.

PROGRAM ACCESS REQUIREMENTS

Royal Moroccan Sports Federations whose disciplines are included in the Los Angeles 2028 Olympic Games program (individual senior Olympic events/categories) may submit to the National Olympic Committee of Morocco the applications of athletes who meet at least one of the following conditions:

CATEGORIES	REQUIREMENTS	MONTHLY GRANT
ELITE A	- Be an Olympic medalist at the Paris 2024 Olympic Games; - Be ranked among the top 10 worldwide in the latest ranking published by the International Federation; - Be a medalist at the most recent World Championships; - Have qualified for the Los Angeles 2028 Olympic Games through the global quota system.	10,000 MAD
ELITE B	- Be ranked between 11th and 20th worldwide in the latest ranking published by the International Federation; - Have qualified for the Los Angeles 2028 Olympic Games through the continental quota; - Be the African champion of the current season; - Be the top-ranked African athlete in the latest ranking published by the International Federation; - Be a gold medalist at the 2026 Mediterranean Games or the 2025 Islamic Solidarity Games.	6,000 MAD
ELITE C	- Be ranked between 21st and 30th worldwide in the latest ranking published by the International Federation; - Be the African silver medalist of the current season; - Be the second-ranked African athlete in the latest ranking published by the International Federation; - Be a silver medalist at the 2026 Mediterranean Games or the 2025 Islamic Solidarity Games.	3,500 MAD

**The world ranking considered will be the one used by the International Federation for Olympic qualification.*

Athletes proposed must also meet the following requirements:

- Demonstrate strong potential to qualify for the Los Angeles 2028 Olympic Games (in accordance with each sport's qualification system);
- Submit a compelling athletic project (objectives, projected preparation program, intermediate goals, technical support, professional plan);
- Have no history of doping violations or ongoing disciplinary sanctions;

- Have undergone a medical check-up with a favorable opinion from a specialized physician (in one of the medical centers designated by the National Olympic Committee of Morocco);
- Agree to the scientific and individualized monitoring implemented by the XLAB of the National Olympic Committee of Morocco;
- The list of athletes selected for this program will be updated every four months: in January, May, and September each year.

PROGRAM BENEFITS

Athletes selected for this program may benefit from a range of support measures aimed at enhancing their development and optimizing performance, including:

- A monthly grant, awarded based on the athlete's category and performance level;
- Training camps, organized in Morocco or abroad, depending on planning needs;
- Support for technical staff (coach, strength and conditioning coach), where applicable;
- Participation in international competitions, in accordance with the calendar approved with the relevant federation;
- Scientific and individualized monitoring provided by the XLAB of the National Olympic Committee of Morocco;
- Medical support, including regular health assessments and specialized care;
- Mental performance support, provided by qualified sport psychology professionals.

The coverage of these services may be provided through different mechanisms:

- Through monthly grants allocated directly to athletes;
- Within the framework of individualized agreements signed with athletes;
- Or through partnership agreements concluded between the National Olympic Committee of Morocco and the Royal Moroccan Sports Federations.

PROGRAM MONITORING FRAMEWORK

Regular reporting is required from athletes and their federations to monitor the progress of each scholarship recipient. The required reports are as follows:

- A weekly report to be completed by the athlete on a dedicated platform (training volume, training intensity, recovery methods, injuries, physical condition, sparring partners, location, weight, height, BMI, sleep, nutrition, etc.);
- A medical check-up every four months at one of the medical centers designated by the **National Olympic Committee of Morocco**.

The list of athletes in each category will be updated every four months following the analysis of all reports, as well as the technical level of each scholarship recipient.

In order for an athlete to retain their Olympic scholarship, they must comply with the following conditions:

- Improve or maintain their ranking level;
- Achieve the intermediate objectives set in their agreement;
- Comply with the signed agreement and reporting procedures related to the scholarship.

Otherwise, the athletes concerned will be removed from the list of scholarship recipients.

An exemption may be granted if the athlete provides valid reasons demonstrating their inability to meet the above conditions. In such cases, they may be granted an additional four-month period to address the identified shortcomings.

SCIENTIFIC AND INDIVIDUALIZED MONITORING FRAMEWORK

The scientific monitoring of athletes selected under this program will be carried out by XLAB, the performance laboratory of the National Olympic Committee of Morocco, based on a rigorous scientific approach.

This monitoring is based on:

- The regular collection of data through the use of connected devices (watches, scales, trackers, etc.) to measure key performance indicators;
- Periodic testing to assess the evolution of physiological, biomechanical, mental, and nutritional parameters;
- Individualized analysis of results, with the aim of providing practical recommendations to coaches and federations to adjust preparation plans.

Participation in the program requires the full commitment of athletes to the monitoring framework.

PROGRAM EXIT CONDITIONS

The scholarship may be withdrawn in the following cases:

- Failure to qualify for the Los Angeles 2028 Olympic Games;
- Decline in technical performance making Olympic qualification unlikely;
- Serious injury or cessation of sporting activity;
- Behavior contrary to ethical standards (doping, disciplinary issues, etc.);
- Violation of the scholarship agreement between the athlete, the federation, and the National Olympic Committee of Morocco;
- Failure to comply with reporting procedures related to the scholarship;
- Any other reason preventing the athlete from participating in the Los Angeles 2028 Olympic Games.

PROGRAM MANAGEMENT FRAMEWORK

The National Olympic Committee of Morocco will establish, in coordination with athletes and the relevant federations, an agreement to:

- Define the commitments of each party;
- Set the objectives to be achieved by each athlete;
- Ensure compliance with the program's funding procedures.

Athletes and federations must adhere to the management framework and procedures defined in the agreement signed with the National Olympic Committee of Morocco.

APPLICATION PROCESS

Athletes and Royal Moroccan Sports Federations wishing to benefit from this program must complete the application form and submit it to the National Olympic Committee of Morocco.

Through its Technical Department and ongoing sports monitoring, the National Olympic Committee of Morocco may support federations in identifying eligible profiles.
